

Features & Benefits

- Trade show coordination from start to finish
- CAD renderings & floor plans for all display configurations along with a complete inventory of exhibit assets
- EMP Online, TTG's Online Exhibit Management System, also available

Our **Show Services** staff can prepare and complete your show forms, process payments and verify schedules of any item, service or utility. From audio/visual equipment and carpet, to computers, water lines and everything in between.

As an integral part of our Exhibit Management Program, **EMP Online** is a very powerful online tool that lets you manage your exhibit assets from anywhere in the world. The Trade Group® developed the EMP Online system to facilitate the fastest responses available, with the selectivity our clientele demands. Every EMP client can leverage the power of an online catalog of items being stored and managed at our facility.
